

SUPPORTERS' SOCIETY OFFICIAL UPDATE SEPTEMBER 2023

Dear member

I am writing to provide an official update on the progress of the East Fife Supporters' Society bid to secure the majority shareholding in East Fife Football Club.

Negotiations have commenced with the current owner of the shares and progress is being made. As such, the application has now been submitted to and accepted by the funding source we have identified to support us in facilitating the share purchase.

An integral part of the process going forward is for us to grow membership of the society and secure further pledging. We have had a great response to our recent campaign, and we are grateful to everyone for the support to date.

But, we need you ALL to pledge. This would ensure the long-term future of East Fife Football Club.
